## MONTE CARLO, MONACO

Monte Carlo is an administrative area of the Principality of Monaco, widely known for its casino. The permanent population is about 3,000. Monte Carlo quarter includes not only Monte Carlo proper, where Le Grand Casino is located; it also includes the neighborhoods of Saint-Michel, Saint-Roman/Tenao, and the beach community of Larvotto. It borders the French town of Beausoleil (sometimes referred to as Monte Carlo-Supérieur).

Founded in 1866, Monte Carlo has a name of Italian origin meaning "Mount Charles," in honor of the then-reigning prince, Charles III of Monaco. The specific mountain is the escarpment at the foot of the Maritime Alps on which the town stands. Charles III of Monaco was responsible for turning the Monte Carlo district and Monaco into a thriving town.

The history of the area and the ruling Grimaldi family, however, dates back centuries. The port of Monaco is first mentioned in historical records as early as 43 bc, when Julius Caesar concentrated his fleet there while waiting in vain for Pompey. In the 12th century, the area fell under the sovereignty of Genoa, which was granted the entire coastline from Porto Venere to Monaco. By the 1850s, Monaco's reigning family was almost bankrupt; this was a result of the loss of two towns, Menton and Roquebrune, which had provided most of the principality's revenues with their lemon, orange and olive crops. At the time, a number of small towns in Europe were growing prosperous from the establishment of casinos, notably in German towns such as Baden-Baden and Homburg. In 1856, Charles III of Monaco granted a concession to Napoleon Langlois and Albert

Aubert to establish a sea-bathing facility for the treatment of various diseases, and to build a German-style casino in Monaco. The initial casino was opened in La Condamine in 1862, but was not a success; its present location in the area called "Les Spelugues" (The Caves) of Monte Carlo, came only after several relocations in the years that followed.

Monte Carlo is one of Europe's leading tourist resorts, although many of the key tourist destinations are located in other parts of Monaco, including such attractions as Monaco Cathedral, the Napoleon Museum, the Oceanographic Museum and Aquarium, and the Prince's Palace, all of which are located in Monaco-Ville. The city has been visited by royalty as well as the general public and movie stars for decades and has featured in numerous films and television series.
